Details Like FullName, Emails ID, Mobile No, Location etc

MAKE SOME RD / FD.

Hybrid Model: Combine RD's flexibility with FD's higher returns.

Smart Automation: Automatically converts mature RD installments into FD-like blocks for higher compounding.

Dynamic Interest: Adjusts based on market rates or customer profiles.

SMART RD PLATFORM

Example: A user saves ₹5,000 monthly for 12 months (Smart RD).

- After 3 months, each 3-month block converts to short-term RDs earning higher interest.
- At maturity: user earns higher effective yield than traditional RD.

SMART FD PLATFORM

Example : A Users Fixed ₹10,000 Monthly For 36 Month (Smart FD).

- After 36 months, each 36-month block converts to short-term FDs earning higher interest.
- At maturity: user earns higher effective yield than traditional FD.
